

Established in 1995, CRDM is one of the UK's leading and largest providers of [rapid prototyping](#) and rapid [tooling](#) services for industry across sectors including **automotive**, **aerospace**, **medical, defence** and **motor sport** including

F1

. Since 2007 we have been operating from our new bespoke 22,250 sq ft facility in High Wycombe, Buckinghamshire (close to the M40, M4 and M25), which means we have the capacity to handle your project.

CRDM uses a wide range of 3D CAD driven rapid prototyping and ALM technology combined with advanced CNC, wire and spark erosion to deliver components quickly and efficiently, with all processes accredited to the ISO 9001:2000 quality assurance standard.

Our team of 40 staff cover a large range of skills from expert model making through CAD design to toolmaking and project management, we also manufacture production components for a wide range of industries. All that experience will be used to help you.

CRDM's mission statement is focused on continually improving the efficiency of design, tooling and manufacturing techniques in order to deliver faster, more efficient solutions for industry. [C](#)
